TITLE OF PROJECT:
Al-Insaan Care: A Supportive App for Illiterate Needy People.

INTRODUCTION OF Y PROJECT:
Al-Insaan Care is a mobile application designed to support illiterate and needy individuals by providing them with financial aid or material donations, such as clothing, electronics, shoes, and blood. The app eliminates text-based barriers by presenting information and interfaces through visuals, audio instructions, and videos. Users can request assistance by submitting information like their CNIC, address, and house details via voice messages or calls.The app ensures thorough verification by involving the administrative department to validate the requests. Once verified, the delivery department ensures the donations reach the recipients through courier services, while specific items like blood or money are distributed directly. By leveraging multimedia tools, Al-Insaan Care aims to provide an inclusive, user-friendly experience for the illiterate population, empowering them to access support easily and effectively.

THE UI:

1. **Home / Donation Page:**

Header Section:
- Search bar with a placeholder "al-insaan care"
- Buttons for Favorites, History, and Following
- A featured banner with the text "Al-Insaan Care", showing pears (likely as a symbolic image or category highlight)

Main Categories:
- Material Donation section: Uses icons for different types of items that can be donated, such as:
  - Food (cutlery icon)
  - BLOOD
  - Clothing (shirt icon)
  - Shoes

Food Category Section:
- Horizontally scrollable product list
- Each item includes:
  - Image of the item
  - Brand (generic placeholder text)
  - Product name (generic placeholder)
  - Price (e.g., Rs.100, Rs.79, Rs.120)

Navigation Bar (bottom):
- Icons for Home, Favorites, Cart, and Profile

2. **Right Screen: Checkout Page**

Section Breakdown:
- Shipping: Placeholder text "Add shipping address"
- Delivery:
  - Free
  - Standard (3–4 days)
- Payment: Marked as "Needy People", implying this is a donation being made on their behalf
- Promos: Option to apply a promo code

Items List:
- Two items are shown with:
  - Image
  - Brand and description (placeholder text)
 - Quantity: 01 each

Prices: Rs.200 and Rs.99

Pricing Summary:

- Subtotal: Rs.399
- Shipping: Free
- Discount: 100% (shown as Rs.399 discount, possibly for donations)
- Total: Rs.0

Call to Action:

- Large black button labeled "Place order"

Key Design Features:

- Clean, minimalist design
- Simple iconography and product layouts
- Focus on charity/donation model (e.g., "Needy People" payment, 100% discount)
- Good user experience with clear checkout flow

3. Dashboard (Al-Insaan Care)

- **Header:** App name with hamburger menu and user profile icon.

- **Tabs:** Placeholder buttons (Tab, Tab, Tab).
- **Stats Overview:**
  - Large statistic cards showing:
    - **$45,678.90** (with +20% growth)
    - **2,405** users or contributions (with +33% growth)
- **Line Graph:** Shows a trend (likely donations or user engagement) from **Nov 23 to Nov 30**.
- **User List:** A section showing user names and emails (e.g., ARHUM, AHMAD).
- **Bottom Navigation:** Home, analytics, history/logs, notifications, and profile.

4. **Social Feed (For You Tab)**
- **Feed UI:**
  - Post by **Helena in Group Name**, with a photo of pasta.
  - Shows time posted (3 min ago), description, **21 likes**, and **4 comments**.
- **Comment Section:** Example comment by Daniel emphasizing the importance of humanitarian food delivery.
- **Bottom Navigation:** Home, search, add post, notifications, and profile.

5. **Activity Feed**
- **Header:** "Activity" with category filter buttons at the top.

- **Notifications List:** Displays user interactions (likes, comments, follows, shares) with profile images and timestamps (e.g., "1d", "2d").
- **Button Element:** A placeholder button is shown on the top notification.
- **Bottom Navigation:** Icons for Home, Search, Add, Notifications, and Profile.

Middle Screen: Chat Interface
- **Chat with:** "Helena Hills" (active 11m ago).
- **Message Thread:**
  Clear alternating message bubbles between users.
  A black bubble shows system or highlighted info:
"User-friendly design for illiterate individuals…"
- **Input Field:** Text box with emoji, attachment, and microphone options.
- **Call and Video Icons:** Top right for instant voice or video calls.

6. Account Signup Page
- **Title:** "Al-Insaan Care"
- **Form:** Email field with a "Continue" button.
- **Alternative Sign-in Options:**
  Continue with Google
  Continue with Apple
- **Legal Text:** Notes agreement to Terms of Service and Privacy Policy upon clicking.

Overall Summary:
This UI design supports a **social and accessible donation platform**, offering features like:
- Real-time user interaction tracking,
- Integrated chat with accessibility focus,
- Simple and inclusive account creation process.
